Mr. Jenkins is an executive consultant who specializes in Electronic Business particularly with foreign governments. He analyzes , prepares strategic plans and implements Electronic Commerce internationally in the public and private sector. His interest primarily is Internet/Web based technologies but also smart cards . This includes introducing electronic business to the organization, integrating them and ensuring they are integrated with existing systems and technologies. He also is a specialist on joint venturing and partnerships between hi-tech international firms. He has recently worked on Electronic Commerce projects with the Czech Republic, in the Nordic region, particularly Sweden, as well as Hong Kong last year.

---

This editorial will be brief as I would like you to read Rich Field's excellent Guest Editorial - and of course the rest of the articles !

I would like to welcome Mr. Jerry Dwyer and his new column on Banking - Mr Dwyer brings experience in the banking community both professionally and academically.

As well , Judie Mulholland and Keefee's extremely successful and popular " Best from E Carm" will become a regular feature in "The Best Of" section of the Journal.

Enjoy  
Gord
